

CONGRESSIONAL BUDGET OFFICE COST ESTIMATE

June 3, 2008

H.R. 5949 **Clean Boating Act of 2008**

*As ordered reported by the House Committee on Transportation and Infrastructure
on May 15, 2008*

H.R. 5949 would direct the Environmental Protection Agency (EPA) to investigate discharges of pollution from recreational boats to determine what types should be regulated and to promulgate standards of performance for managing those discharges. The U.S. Coast Guard (USCG) would be responsible for enforcing the standards developed by EPA.

CBO estimates that implementing H.R. 5949 would have no significant effect on the federal budget because EPA is already required to regulate discharges from recreational boats that it deems should be regulated, and either that agency or the USCG must enforce such regulations. The two agencies are currently carrying out those responsibilities. Enacting the legislation would not affect revenues or direct spending.

The bill contains no intergovernmental or private-sector mandates and would impose no costs on state, local, or tribal governments.

The CBO staff contact for this estimate is Deborah Reis. The estimate was approved by Theresa Gullo, Deputy Assistant Director for Budget Analysis.
